

## Getting Started with BEANSTACK

BEANSTACK is a free web and mobile app you can use to track independent reading time and help build a culture of reading at home. BEANSTACK makes it easy for you to help your kids track their reading and helps keep them motivated to read.

Visit our BEANSTACK landing page at <https://webster.beanstack.org/>

You will need to create a BEANSTACK account to access the Summer Reading Challenge. You will be asked for your name, email address, library card number. Once an account is created, you can add additional reader accounts for other family members wishing to participate.

The BEANSTACK Tracker App is available on iOS and Android platforms.
